When you want to find out "Who sells it"—look in the Classified Section of your telephone book. Saves time and worry.

GOODBYE TO "HELLO"
In business use of the telephone, the word "Hello" is a time-waster. When answering the telephone, always use an identifying name—your firm's name, your department, or your own name. You'll save a lot of time if you will.

All loans are made quickly and in strictest privacy; without involving friends, relatives, or employer. We never take wage assignments.

At 'Personal' you receive the full amount of your loan without deductions, and pay only for the actual time you keep the money. And special consideration, *after the loan is made as well as before*, is a feature of 'Personal's' friendly service. Phone or come in to our nearest office today.

When you want to find out "Who sells it"—look in the Classified Section of your telephone book. Saves time and worry.

DON'T WHISPER—
DON'T SHOUT!
When you talk over the telephone, you'll find you'll be more easily understood if you talk directly into the mouthpiece—using an ordinary conversational tone of voice.

In answering the telephone, the English say "Are you there?" Some people say, "Hello." But in business organizations the correct answer is the name of the company or the department or the name of the individual who answers the telephone.

The Classified Telephone Directory is a "best seller"—because buyers turn to its pages to find the sellers of what they need—concerns that carry what they want to buy—the mechanic or specialist whose services are required.

Best of all, your own business or service can be listed under several business headings throughout the Classified section at small cost.

PATIENCE PAYS

Thousands of telephone calls are missed every day because the person calling will not wait a second or two longer. It's a good rule to wait that extra second.

Another good rule is to answer a ringing telephone promptly. That too will make fewer missed calls.

And in business a missed call is often a missed order.

In answering the telephone, the English say "Are you there?" Some people say, "Hello." But in business organizations the correct answer is the name of the company or the department or the name of the individual who answers the telephone.

Your Telephone Number
IS IMPORTANT
It pays to feature it on your stationery, billheads, booklets and folders and in newspaper and other advertising.

THE COURTEOUS
THING

This executive—even in these busy days—stays on the telephone while getting his long distance number. He is ready to talk to his customer or client the instant the connection is completed. It's not only courteous—it's efficient too.

GOODBYE TO "HELLO"

The Army has banned the "hello" habit and has ordered its calls answered by giving the name or department...just as many business houses have been doing for years . . . a good business practice that saves the time of both the answering and calling persons.

IT'S AUTOMATIC HEAT and IT'S LOW COST

A FAIRBANKS-MORSE
Automatic Coal Burner
does four things for your home
1. It enables you to use low-cost, high-heat fuel—anthracite buckwheat or pea.
2. It feeds and burns coal completely, automatically.
3. It blocks-controls your heat - by boiler-control and room temperature.
4. It pays for itself out of savings.

"I Wanted To Call You . . .

. . . but I couldn't find your name in the directory." Nobody knows how many times each day that statement is made, but it usually means that two people have been disappointed at not having been able to get in touch with each other.

One of the common causes is that people have relatives living with them whose names are not listed in the directory. The situation can be fixed very easily, however, by having an extra listing inserted. The cost is only 25¢ a month. Just call the Business Office.

In answering the telephone, the English say "Are you there?" Some people say, "Hello." But in business organizations the correct answer is the name of the company or the department or the name of the individual who answers the telephone.

NEW YORK TELEPHONE COMPANY

PATIENCE PAYS

Thousands of telephone calls are missed every day because the person calling will not wait a second or two longer. It's a good rule to wait that extra second.

Another good rule is to answer a ringing telephone promptly. That too will make fewer missed calls.

And in business a missed call is often a missed order.

No need to march around all day looking for something you want to buy. A glance at the Classified Telephone Directory will nearly always show you who sells it.

GOOD TELEPHONE HABITS IN BUSINESS

1. Answer the telephone ... promptly.
2. Have pencil, pad, catalog, or price list handy.
3. Don't leave customers "hanging." Offer to call them back.

YOUR USE OF THE TELEPHONE IN WARTIME

TODAY telephone wires are humming with the urgent messages of a nation at war.

Yet there is no reason why you should not make normal use of your telephone. Except in a few localities and on certain very crowded long distance routes, we are able to give you as good service as in peacetime.

However, you can help us serve both you and the war effort by avoiding any wasteful use of telephone facilities. So please keep in mind these ten simple suggestions:

10 WAYS YOU CAN HELP

1. WHEN YOU HEAR AN AIR-RAID WARNING, DO NOT TELEPHONE. Lines must be kept clear for military and civilian defense. Except for serious personal emergency, please don't telephone during an air-raid alarm or for some time after the all clear.

2. SPEAK CLEARLY AND DIRECTLY INTO MOUTHPIECE. Having to repeat yourself takes time, and ties up the lines needlessly. Talk in normal tones with the lips about ½ inch away from the mouthpiece.

3. HANG UP RECEIVER CAREFULLY. A book or other object under the receiver may put your telephone "out of service." Replacing the receiver carefully will insure your getting all incoming calls.

4. LOOK UP NUMBERS YOU'RE NOT SURE OF. Refer to your personal number list or the directory and call "Information" only when you can't find the number there.

5. KEEP PAD AND PENCIL HANDY. Having to look for them during a telephone conversation wastes time. Keeping notes avoids mistakes and confusion, so have a pad and pencil by your telephone.

6. ANSWER YOUR TELEPHONE PROMPTLY. Even seconds are important these days. However, when you make a call, give the other fellow enough time to reach his telephone before you hang up.

7. USE CARE IN DIALING. Always wait until you hear the "dial tone"—a steady humming sound—before you dial. This tone is the "number please," indicating that the equipment is ready to take your call. And be sure to dial the letters and numbers *in the right order.*

8. KEEP A LIST OF NUMBERS FREQUENTLY CALLED. That saves time, too. We'll be glad to send you a free booklet for your personal list. Call the Business Office (Dial 811) for this time-saver.

9. YOU CAN HELP RELIEVE CONGESTION ON LONG DISTANCE LINES if you will make your calls to more distant points during these least-busy hours: before 10 a. m.; around noon; and after 9 o'clock in the evening.

10. DON'T SAY "HELLO." It's quicker to answer with your name, company, department, or telephone number instead.
